

Medical Marijuana Manufacturing Supplemental Information

1. Which license will you be applying for under the Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA)?
 - ☐ Manufacturing Level 1 M-Type 6: Nonvolatile Solvent/No Solvent Manufacturing
 - ☐ Manufacturing Level 2 M-Type 7: Volatile Solvent Manufacturing
2. Will the facility be utilizing a closed-loop extraction system?
 - ☐ Yes
 - ☐ No
3. What type(s) of extraction will you be performing?
 - ☐ Butane
 - ☐ Propane
 - ☐ Hexane
 - ☐ Carbon Dioxide
 - ☐ Ethanol
 - ☐ Mechanical extraction
 - ☐ None
 - ☐ Other _____

Electricity Use Estimates

Record your estimates of electrical usage in kilowatt-hours (kWh). To determine how many kWh a piece of equipment uses, take the following steps:

- Determine the wattage of the device by checking manufacturer specifications
- Multiply this number by the number of hours each month the device will be in use to determine watt-hours.
- Divide each month's watt-hours by 1,000 to determine kWh. Round to three decimal places.
- Repeat this for each piece of equipment and the total amounts for each month.
- Estimates should assume the business is in full production for each month.

Describe all sources of electrical power and the total annual kWh expected to be drawn from each. For example, if the operation uses on-site power generation from a source such as solar panels, document the amount of power you expect to use from that source in addition to any other sources.

| Source or utility name | Expected kWh drawn annually | Account # (if applicable) |
|--------------------------|-----------------------------|---------------------------|
| | | |
| | | |
| | | |
| Total Annual kWh: | | |

CERTIFICATION OF LABORATORY TESTING FOR MANUFACTURERS

I, _____, certify that my medical marijuana manufacturing business will
Applicant (Corporation/LLC/Partnership/Sole Owner)
follow all State and local regulations regarding medical marijuana testing for concentration, pesticides, mold and other contaminants. Until regulatory implementation of the Medicinal and Adult-Use Cannabis Regulation and Safety Act, the business shall send all medical marijuana products manufactured for batch testing to a testing laboratory which operates in compliance with Section 5.90.0120 of the Long Beach Municipal Code. This requires that all medical marijuana be batch tested by an ISO 17025 certified lab that is approved by an accrediting body that is signatory to the International Laboratory Accreditation Cooperation Mutual Recognition Arrangement.
